EDUCATION

2022-2026

ANNA UNIVERSITY

- bachelor of engineering in computer science

SKILLS

- system assemble & hardware
- networking
- switching L1 , L2 and L3
- Routing
- Firewall, Ids and Ips
- problem analysis
- VM migration
- Cyber security & Network security

PROGRAMMING LNG

- Python
- Bash & Shell script
- JavaScript

LANGUAGES

- Tamil
- English

PROFILE SUMMARY

Networking and Cybersecurity professional with practical experience in LAN setup, IP and router configuration, switching, firewalls, and IDS/IPS. Skilled in real-time network troubleshooting, security best practices, and hands-on management of networking devices.

WORK EXPERIENCE

Beginner

2022-2025

system configuration

- System Assembly and Hardware Troubleshooting professional with hands-on experience in assembling computer systems, diagnosing hardware issues, and implementing effective solutions. Skilled in identifying faults in components like CPUs, motherboards, RAM, drives, and power supplies. Proficient in root cause analysis, hardware upgrades, and executing repair or replacement to ensure optimal system performance. Demonstrated ability to resolve issues such as power failures, overheating, and performance slowdowns through structured troubleshooting and corrective actions.

CERTIFICATIONS:

- Networking Basics (Cisco)
- Python (Coursera)
- cyber security fundamentals (EC-Council)
- Linux Malware development (EC-Council)
- Hands On FortiGate Firewall (EC-Council)
- Cisco lab Crush (EC-Council)

TECH SKILLS

- Windows ,Kali linux , ubuntu.
- nmap,wireshark, Aircrack-ng etc.,.
- Windows power shell and linux terminal.
- capture the flag.
- Git and GitHub.
